CANVA STORIES

Young people participated in creative artistic workshops during the youth exchange - a part of the "A scrap of my world" project. They created commemorative albums of their world, ideas, dreams in the form of scrapbooking and handmade ornaments using the quilling method.

**Let's move together to the world  
of emotions, memories and  
experiences retained in the works  
of young artists.**

# Alise

I love pink and yellow. I like combining different art styles. Elements of nature included in my work make me happy.

Aliki

*I feel like a forest that knows its plants one by one. I met a lot of different people, learning their cultures and their hobbies. This is the moment you meet someone and it's like you have known them for years. Furthermore, my perspective for some things like food, team, activities has changed. I like to gain new experience. So my artistic view has changed as well.*

# Anna

I followed my mood and chase pictures that spoke to me. I didn't want to restrict myself in any way and chose very different styles.

Many of these pictures and drawings have a story or symbolise something for me that everyone can interpret differently.

Antoni

I am energetic but creating  
scrapbook calmed me down. I met a  
lot of new people.

# Anthi

I discovered the "artistic" side of myself.

I met some important people and I am blessed for this. Thank u all! Experience, memories, feelings are all you need! Really grateful for this opportunity.

Beatrise

Kind, always looking for new opportunities, open-minded, I like to make new friends, I love animals, I am spontaneous.

# Demi

Experiences, new friends, new skills.

This experience helped me discover the childish and playful side of myself. I learned some skills about art that helped me create and decorate the scrapbook we were working on, on a daily basis. Last but not least, I met new people that unexpectedly became my friends.

# Elesa

Creating this scrapbook allowed me to experiment with new techniques and materials, challenge my creativity and reflect back on all the wonderful memories I created during this project... I actually didn't imagine how much I would enjoy making this.

# Evangelia

A collection of collages and sketches was made from things that captured my attention. It represents my aesthetic and turns an abstract concept to a more specific idea. My work represents my memories in Poland.

Foteini

CANVA STORIES

*I totally found the way to explore all the adventures that this programme gave me. I discovered the more childish side of myself. This programme brought me closer to the art and helped me develop my artistic side. It helped me to be more patient, more cooperative and be open-minded*

Grieta

I love to create wacky things like jewellery  
with weird faces, studying art. Music  
makes me happy and so do dogs.

Jakub M.

I am very creative but  
sometimes reserved. I feel  
safer when I know  
someone better, but this  
project gave me a lot of  
new friends.

Keila

CANVA STORIES

I love sun and water, warm people,  
languages, books, yoga, music, nature,  
French fries, coffee, wine and cheese,  
musicals and corals.

Jakub K.

*My diary reflects my memories from the first Erasmus+ project in my life. I like music, car races and fashion. My biggest dream is to travel around the world one day.*

# Laura

All the world is one big art, and we can see it even clearer when we are expressing feelings in some drawings, music, book writing and many other ways of expression. When we look at the outside world, our inner world is formed at the same time. And when it's bright, we want to share this light with others. When there is light in the soul, we also become part of the world.

# Liba

These artworks are reflections of my true inner self and experience dressed in an emotional diary.

Here you can see my deepest dreams, secrets and magic experience of being human in this strange planet and time.

Patryk

CANVA STORIES

*I like green colour. I love robots. Sometimes I imagine myself being in distant future.*

Marta M.

Creating scrapbooks gave me a lot of joy.

Not only have I developed my creativity and played with art, but I also met a lot of amazing people.

It was a small but deep and meaningful experience. Despite our differences in culture and lifestyles, we have more things in common than we expected. This project is something that I will remember forever.

# Kyriaki

I like assertive people and try to say NO if I want to express my point of view. I am a positive thinker. As a very sociable person I love people. I like when others show their real feelings. My life is full of colours and good vibes. I believe in myself. That's what I am like.

# Marta W.

Art was always part of my personality and now it's even more. Scrapbook shows myself as an esthetic and independent young woman, who can do almost everything on her own. For me this is the best way to develop my emotional side that I'm hiding inside for most of the time.

Martyna

*I made this notebook because it represents me and what I think about myself. It also expresses my connection with nature and my artistic soul. My inspiration while creating this work was basically everything around me that I find simple but esthetic.*

Oliwia

*I like nature and colourful flowers. I also like summer and sunbathing. I always go on holiday with my family to the seaside. I have to say that nature gives me some power and energy.*

My diary including many drawings represents my memories. I love countryside, flowers, plants, dance, nature and animals. Boat trips always make me relaxed.

# Ralfs

I love making crafts from wood (bookmarks, postcards ect.). Car fanatic, love drifting. I like walks around the city.

Kuba K.

*When I have some time to think, I always dream. I have lots of dreams. The best place for me to let my mind wander is a glade or a meadow full of butterflies. I love colourful butterflies. I have an impression that thanks to them my dreams always come true.*

# Roberts

My last name, Erqlis, in Latvian means eagle. I was born in an eagle family and I admire arts. I find creative things very interesting. I usually put all my skills and knowledge into work. I enjoy every single detail.

# Roksana

I met a lot of people and understood that art in any form gives me lots of pleasure.

# Ruta

Art, music, theatre, love, nature, chaos, magic,  
are the things that I can't imagine my life  
without. I love to open up new perspectives, make  
new contacts and get to know myself better.

# Wiktoria

Quilling workshops were interesting and innovative for me, because I had never had any contact with this technique before the project. I had a lot of fun creating my work. The result is my work with a banana - it brings to mind a "banana" on my face.

Zuzanna

I was able to work with wonderful people, learn about their view of the world and see how they express their emotions through art.
